

Missing Person

First Name: Amelia Mary

Last Name: Earhart

Date of Birth: July 24, 1897

Age: 116

Sex:

Height:

Weight:

Amelia Earhart went missing in the central pacific ocean near Howland Island.

She and her co-pilot Fred Noonan were flying along a line of position (taken from a "sun line" running on 157–337 degrees) which Noonan would have calculated and drawn on a chart as passing through Howland.

It's possible she landed on an uncharted island. Anyone with any information on her whereabouts is asked to contact us.

Last Seen: Central Pacific Ocean near Howland Island
